PROFILE

Full-stack-oriented developer who completed the 2026 final apprenticeship exam with distinction. I combine current web development and database skills with many years of experience in technology, support and clear customer communication.

PROFESSIONAL EXPERIENCE

since 2024

Web Development Intern | Prowect e.U.

Jira issues across Vue/Nuxt/Vite, PHP/Laravel and databases; Git and Scrum in an agile team.

2000-2022

Technology Sales Advisor | MediaMarkt

Consulting on computer hardware, accessories and large appliances; communicated technical solutions clearly.

1999-2000

Support and PC Technician | EDV-Design

Internal and external support, PC installation and upgrades, and administration of network components.

1998-1999

Office Equipment Technician | Epson printers

Technical service and fault diagnosis for printer systems.

EDUCATION

2023-2026

Application Development Apprenticeship | BBRZ

Graduated with distinction; C#, ASP.NET Core MVC/Razor, SQL Server, system technology and IT security.

1994-1998

HTBLuVA Mödling

Electronics and communications engineering.
